

Oxide magnet 301650 Ø50x25x15mm

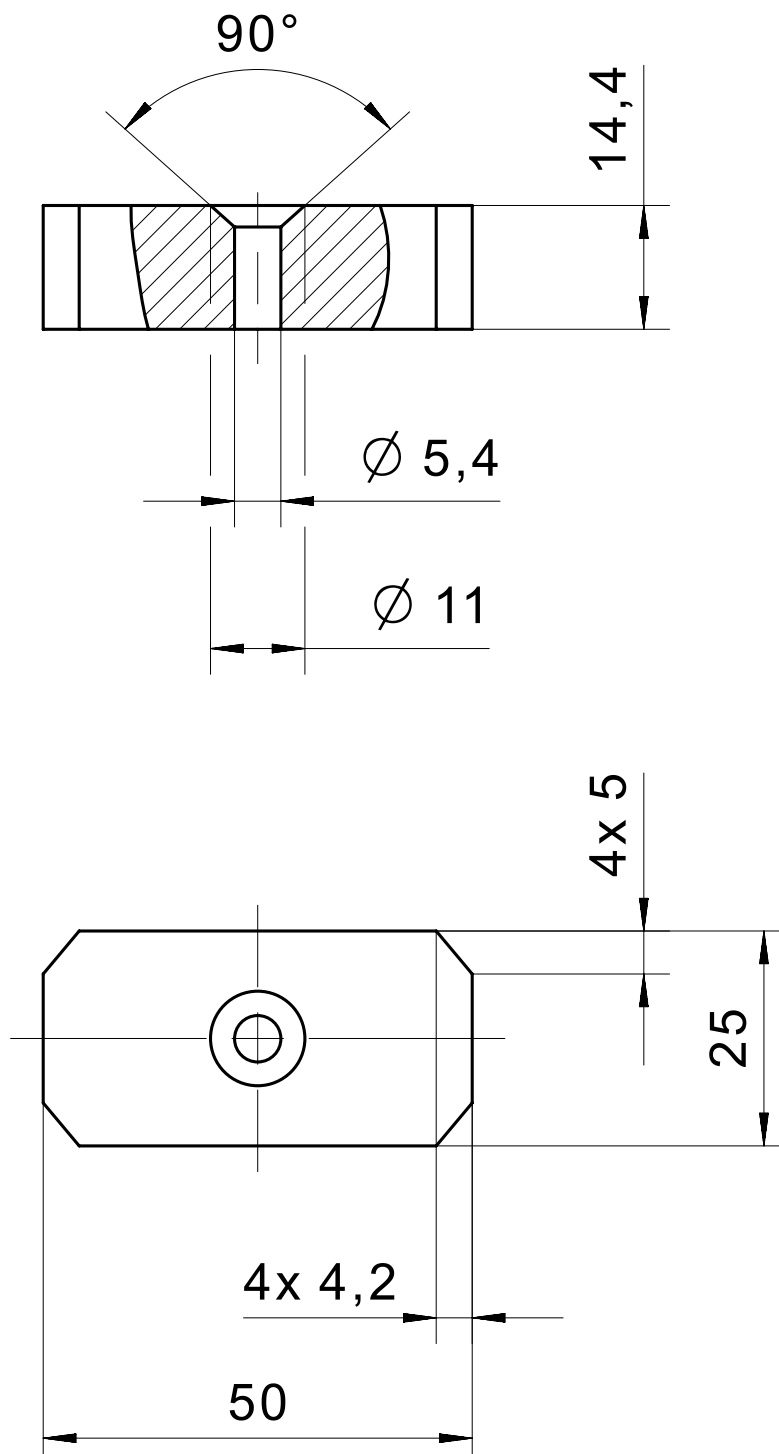

Product characteristics

- For use with magnetic sensors
- Simple installation with just one screw
- Large temperature range

301650

Article characteristics

| Attribute | 301650 |
|----------------------------|--------------|
| Operating temperature min. | -20 °C |
| Max. operating temperature | 100 °C |
| Dimensions | 25x50x15 |
| Mounting type | Screw |
| Material | hard ferrite |
