

Safety sensor 166

For large guard doors and flap monitors, e.g., in packaging machines, we recommend the 166 series safety sensors. They offer maximum flexibility and adaptability to the application due to, among other things, the flexibility in positioning the cable outlet.

Technical specifications

- Connection type: cable outlet (available in 3 positions)
- can be used in 3 directions
- Dual mounting options enables the door hinge to be mounted on the right or left (no extra variant necessary)
- Matching actuator with magnet system 30426613 that can be rotated according to the application
